7.3.1 - Portray the performance of the Institution in one area distinctive to its priority and thrust.

The college develops the required infrastructure while keeping an eye on the future. The college offers sufficient physical facilities, including staff rooms, classrooms, restroom, seminar space, reading room and library, YCMOU division, administrative building, sports complex, NSS division, etc.

In order to meet the high academic standards of the aspiring students, the college features a number of labs for courses including computer science, physics, chemistry, botany, and zoology.

e-Granthalaya software is used to automate the college's central library. The capability for cloud computing and servers is maintained by BSNL. There is also a barcode feature for books and membership. Students and staff have access to e-journals, Shodhganga membership, e-books, databases, 100 Mbps bandwidth, and a BSNL leased line Optic Fibre internet connection with campus Wi-Fi. NSS units give students the ideal opportunity to instill national unity and integration values, which helps them realise their goal of social inclusion. There are medicinal plants and plants needed for the practicals at the college botanical garden. On college property, a rainwater collection system was installed. Every week, our university observes a No-Vehicle Day, and both faculty and students ride bicycles.
